

Beautification Board Yard of the Month October 2017

Congratulations to Mr. and Mrs. Pleffner of 323 Trinidad Drive. They received the YOM Landscape Award for October and have created a wonderful sea of rain lilies in the front and back yard. The collection of the many different species of lilies over the years has resulted in a beautiful mix of pinks, yellow and white flowers. With all of the rain we have received lately, the yard is a blanket of color. They also enjoy the fruit from the many citrus and mango trees they have planted. We appreciate their effort to eliminate turf in the yard.
